Experienced software engineer with 6+ years of work experience. Proven ability working with remote and onsite teams. Strong interpersonal skills and clear communicator. Ardent developer seeking challenges.

### PROFESSIONAL EXPERIENCE

#### **Glaukos – Corneal Health Division**

*Senior Software Engineer*

Boston, MA

*October 2021 – Jan 2022 (Current)*

#### **doblePRIME**

*Software Engineer, UI Developer*

Boston, MA

*October 2015 – Sept 2021*

- Created an interactive dashboard for transformer substation engineers in the field.
- Extensive use of various javascript data visualization libraries (some altered for custom business requests) to allow large datasets to be presented more clearly. D3.js based viz with SVG and HTML5, using canvas elements and WebGL to render thousands of datapoints in the browser.

#### **Launch Academy**

*Junior Full Stack Web Developer*

Boston, MA

*May 2015 - August 2015*

- Worked in an immersive environment supplying over 400 hours of experience towards becoming a proficient full-stack developer. Collaborated with ~40 developers with daily pair programming.
- Developed software applications with test driven development in mind using Ruby, Rails, PostgreSQL, JavaScript, jQuery & CSS. Incorporated strict best practices, including Agile methodologies.

#### **Doble Engineering**

*Laboratory Technician*

Boston, MA

*May 2013 - May 2014*

- Performed dissolved gas analysis (ASTM D 3612) on transformer mineral oil samples.
- Detected thermal and electrical problems through analysis of chromatogram data to prevent dangerous equipment failure. Rigorous testing process requiring knowledge of power systems.
- Built visual basic macros for lab report Excel spreadsheets, resulting in increased sample rate.

#### **Professional Musician**

*Pianist*

Natick, Boston, MA

*June 2012 - May 2016*

- Played lounge music weeknights for 3-4 hours at various restaurants.
- Provided a sophisticated atmosphere for diners with solo jazz piano.
- Able to sight-read popular songs, take requests, and play for the audience in mind.

### EDUCATION

#### **University of Massachusetts Amherst**

Amherst, MA B.S. Neuroscience

*September 2009 - May 2013*

### TECHNICAL SKILLS

**Languages:** JavaScript/TypeScript (expert), Ruby (proficient), Python (proficient), C/C++ (basic)

**Databases:** SQL, NoSQL, Mongo, Postgres

**Software/Tools:** React, Webpack, Node, \*.js, shell-fu, git, bash, custom VM curation

**Hardware:** Embedded systems, DIY PC construction, A/V configuration
